

PROFESSIONAL DEVELOPMENT TRAININGS AND COMMUNITY WORKSHOPS

MEETING SENSORY NEEDS THROUGHOUT THE DAY

Learn practical ways to support diverse sensory needs during daily transitions and activities, creating a more responsive and successful classroom experience.

THE MIND-BODY CONNECTION

This training covers Dr. Perry's 4 Domains of Functioning: Sensory integration, self regulation, relational, & cognitive functioning. Plus, how to promote brain integration and build resilience in kids.

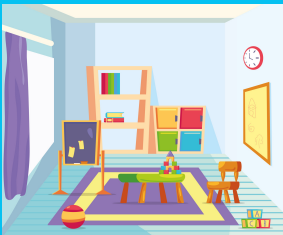

RESPONDING TO CHALLENGING BEHAVIORS

Here we discuss common challenging behaviors in the classroom and how to respond from a sensory and SEL perspective.

UNDERSTANDING AND SUPPORTING EARLY COMMUNICATION

We cover communication milestones, how to support children with delays, and how to use language stimulation strategies to support the development of speech & language.

CREATING INCLUSIVE ENVIRONMENTS IN PRESCHOOL

Learn ways to modify the physical environment, activities, and interpersonal interactions to create a space for all children, including neurodivergent, to thrive.

PROFESSIONAL DEVELOPMENT TRAININGS AND COMMUNITY WORKSHOPS

APPLYING CIRCLE OF SECURITY IN PRESCHOOL ENVIRONMENTS

Discover how the Circle of Security principles can enhance preschool classroom dynamics by fostering secure, supportive & nurturing teacher-child relationships.

SOCIAL-EMOTIONAL LEARNING 101

What is Social-Emotional Learning, really? Here we delve into the meaning and components of SEL & how to support the development of SEL skills in preschool.

CREATING AN OPTIMAL ENVIRONMENT FOR COMMUNICATION DEVELOPMENT

How to design your physical space, the daily flow & curriculum to meet the speech and language needs of all children.

BUILDING RESILIENCE

How do children become resilient? How can preschool environments promote resilience building? Let's discuss how.

SOCIAL-EMOTIONAL GAMES AND ACTIVITIES

In this training, we review games and activities that support the development of essential SEL skills, the 'why', the 'how', and the 'when.'

PROFESSIONAL DEVELOPMENT TRAININGS AND COMMUNITY WORKSHOPS

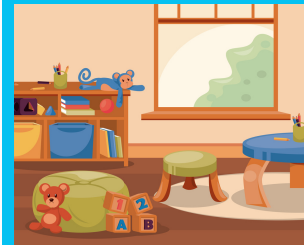

SENSORY DEVELOPMENT 101

Covers the 8 sensory systems, how to identify & support children with differences. Presented by a Pediatric Occupational Therapist.

AN OPTIMAL SENSORY ENVIRONMENT

Designing your physical space, the daily flow, and your curriculum to meet the sensory and motor needs of all children.

COMMUNICATING, INTERACTING, AND CONNECTING WITH LITTLE ONES

Here we cover how the ways we interact with children support the development of essential SEL skills.

PRAGMATIC COMMUNICATION

How can preschool teachers teach children the social aspects of communication?

FROM FIRST FOODS TO FAMILY MEALS: NAVIGATING EARLY FEEDING AND TROUBLESHOOTING WITH AN OCCUPATIONAL THERAPIST

All things related to feeding and eating.

TRANSITIONING TO PRESCHOOL

We'll explore ways to set children up for success as they start preschool for the first time, or return after a summer break.
