

Sensory & Motor Development Trainings

- **Sensory Development 101**
Covers the 8 sensory systems, how to identify & support children with differences (OT).
- **Meeting Sensory Needs Throughout the Day**
How to make all of the daily transitions and activities work with the different sensory needs in your classroom (OT).
- **Responding to Challenging Behaviors 101**
Here we discuss common challenging behaviors in the classroom and how to respond from a sensory and SEL perspective (OT + SEL).
- **An Optimal OT Environment:**
Designing your physical space, the daily flow, and your curriculum to meet the sensory and motor needs of all children (OT).

Social-Emotional Development Trainings

- **Social-Emotional Learning 101**
Here we delve into the meaning and components of SEL & how to support the development of SEL skills in preschool (SEL).
- **Social-Emotional Games and Activities**
In this training, we review games and activities that support the development of essential SEL skills, the 'why', the 'how', and the 'when' (SEL).
- **Building Resilience**
How do children become resilient? How can the preschool environment promote resilience building? Let's discuss how (SEL).
- **The Mind-Body Connection**
This training covers Dr. Perry's 4 Domains of Functioning: Sensory integration, self-regulation, relational, and cognitive functioning. Plus, brain integration and building resilience (OT + SEL).

Speech & Language Development Trainings

- **Language Milestones & Speech Delays**
What is "typical" and how to support children with delays.
- **Language Stimulation Strategies**
This training covers a wide range of strategies to support and stimulate language development in children age 0-5.
- **Analytic vs. Gestalt Language Processing**
Children learn language in 2 ways, Analytic is the most common. If you have a Gestalt language learner in your classroom, you might need some tips to support that child.
- **An Optimal SLP Environment**
Designing your physical space, the daily flow, & curriculum to meet the speech and language development needs of children.
- **Pragmatic Communication**
Teaching children the social aspects of communication.
